Re: KNWC-FM, Sioux Falls, South Dakota
Facility Identification Number: 49776
Northwestern College
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed July 16, 2007, on behalf of Northwestern College ("NWC"). NWC requests extension of the special temporary authority ("STA") granted on April 18, 2007, to operate Station KNWC-FM with emergency antenna facilities pursuant to Section 73.1680.¹ In support of the request, NWC states that the new antenna, transmission line and tower have been shipped and delivery is expected soon.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KNWC-FM may continue to operate from its licensed site with the following facilities:

¹ KNWC-FM is licensed for operation on Channel 243C (96.5 MHz) with effective radiated power of 100 kilowatts (H&V) and antenna height above average terrain of 488 meters.

Channel	243 (96.5 MHz)
Effective radiated power:	6.2 kilowatts (H&V)
Antenna height:	
above ground:	401 meters
above mean sea level:	846 meters
Above average terrain:	416 meters

NWC must notify the Commission when licensed operation is restored. NWC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **July 14, 2008**.

Sincerely,

Charles N. Miller, Engineer
